Polaris International Elects Mark Kelly President of the North American Region

May 27, 2009

Congratulations goes to Mark Kelly who was elected to be the President of the North America Regional Office of Polaris International for a two year term commencing June 2009.

Polaris International is an association of 175 member firms with 850 partners and 7,700 staff with representation in over 90 countries with offices in Europe, Asia, North and South America. The North American Division has 25 member firms that serve clients in tax, audit and consulting areas.

The recent three day forum in Istanbul included professionals from countries around the globe. New and expanding areas of corporate services that were discussed included forensic accounting; compliance and opportunities in the international carbon economy, and business consulting for companies in a down economy.

Mark's quote for the meeting: "Coming together to discuss issues of importance to our clients with fellow professionals from around the globe keeps us on the cutting edge of how best to serve our clients."
